

## Horizontal Headwall

Amico is pleased to introduce a new addition to our Horizontal Headwall line...the Majestic Series. The Majestic Series Headwall has a sleek curved appearance that is aesthetically pleasing. We offer both powder coated and anodized aluminum finishes in a variety of colors. Please contact Amico for a copy of our new brochure for more details.

## The 2 in 1 Alarm Board

Amico is pleased to announce the 2 in 1 Board. This board combines both functionalities of an Area board (display board) and a Master board into 1 board. This is an excellent solution for Retro-Fit products as well as small, level two facilities (small surgery centers).

## Digital Manifold

As of December 1st 2003, we will start including a 3/4" shut-off valve with our Heavy Duty Digital Manifold. This will be an added feature allowing for easier installation.
