- Available in Mira 50, 65 and 90 LED Lights

Gamma Series LED Light
- Ideal for General Examinations

Clarity Series LED Light
- Ideal for Task and Reading Purposes
Operating Room Lights

Our eco-friendly and long lasting iCE LED Surgical Lights last a minimum of 50,000 hours, translating into decades of energy cost savings. The ultra-efficient technology leaves a Green Footprint wherever it is installed.

Amico iCE LED Surgical Lights have superior shadow reduction and deep cavity illumination. This is created with multiple overlapping beams and are adjustable by turning a centrally mounted handle to create a long, homogeneous column of light. This allows surgeons to effortlessly direct a precise light pattern into the surgical field while providing the ideal balance of shadow reduction and deep cavity illumination.
The Amico GoLift is an ideal ceiling lift/hoist system designed to safely lift, transfer and reposition a patient with as little effort as possible for the caregiver.

The GoLift can be integrated into our Amico headwalls, pendants as well as our traditional ceiling track systems, making it an ideal and complete solution for both your ICU and OR. GoLift is the world's smallest 700 lb patient lift that weighs less than 10 lbs!
Complete your ICU or OR with our movable pendant systems equipped with state-of-the-art electric brakes that provide a user-friendly experience for your caregivers. Integrated equipment such as Amico’s GoLift ceiling lift and equipment transport systems provide a safe and effective way to transport patients and IV pumps from the ICU to the OR.
Amico Beds and Stretchers incorporate distinctive features to assist caregivers by providing a more meaningful level of care and comfort for patients.

A full line of thick, durable, flame resistant support surfaces and stretcher pads are also available.
