Amico in the OR

Amico Clinical Solutions creates state-of-the-art products to ensure the greatest possible clinical experience. Our second generation, iCE30m LED Surgical Lighting System brings the highest LED technology to the Operating Room.

The multi-color iCE30m surgical light is designed for superior shadow control and optimum light intensity, along with offering diverse color temperatures to accurately differentiate between tissues. The slim design and laminar flow openings promote airflow, allow for effortless maneuvering of the light, and is attached to a durable suspension system to eliminate drifting. The design was created with exceptional infection control features to prevent the spread of bacteria. Amico’s PLP (Patient Lift Pendant) system can be integrated into the OR booms to assist clinical staff to safely reposition and transfer patients, ensuring the best possible outcomes in your OR.
