

Test Plugs

General Specifications:

The Amico outlet test plugs shall be used to connect the Nitrogen purge gas to a medical gas rough-in outlet during the installation process. The test plugs shall also be used to expel the purge gas.

All test plugs shall be of a rugged, lightweight chrome-plated brass construction.

The plug shall be composed of a threaded end to be attached to a hose and an end to connect to the outlet back body.

Model Numbers

O-X-LVADC-GAS

For proper model number replace the GAS with the following:

| | | |
|----------------|---|-----|
| Oxygen | = | OXY |
| Nitrous Oxide | = | N2O |
| Medical Air | = | AIR |
| Nitrogen | = | NIT |
| Carbon Dioxide | = | CO2 |
| Medical Vacuum | = | VAC |
| Helium | = | HEL |
| Heliox | = | HEO |
| Evacuation | = | EVA |
