Patient Room Lighting

Mira Series Exam/Procedure Light

Solar Series 2x4 and Duo Exam

Gamma Series Exam Light

Amico understands the importance of having the ideal light for each patient room. Our lights can be on a roll stand, concealed in the ceiling or they can be mounted to the bed head unit. The units come complete with reading, ambient and exam features. Amico's lights meet the highest level of standards for the medical environment.

LightMaster Multifunction Keypad with Dimming

With all the advancements in patient room lighting, Amico has made it easy to control the various types of lights required in the patient room. In a single gang space, the LightMaster Multifunction Keypad controls reading, ambient, exam, night, and chart lights for one or multiple light fixtures using a single or dual keypad.
